Kentucky Youth MOVE (KYM) is a statewide chapter of Youth MOVE National. MOVE stands for motivating others through voices of experience. KYM is a voice for all young people 14 & 26 who have lived experience with mental health and substance use. It is an 18-member council of youth between the ages of 14 & 26 and consists of people with their own lived experience and want to make a change in our state based upon their experiences getting services.

We partner with professionals from youth serving systems. We advocate, volunteer, help with events, speak on panels and committees, co-facilitate trainings, and participate in other leadership opportunities in hopes that we can end stigma around youth mental health and substance use. We meet 4-5 times a year as a council to discuss and learn about things that are going on across the state and strategize to make a positive lasting impact.

Kentucky Youth MOVE's mission is that we will provide advocacy and training, share their lived experiences with others, help to create a youth-guided peer to peer network, partner with other organizations to help them understand youth behavioral health challenges, and create a culturally competent youth led system of care.

Kentucky Youth MOVE's vision is that we will create a statewide network to help all youth entering a youth serving system to reach their fullest potential, be empowered, persevere, share their voice and be self-sufficient in living a life without stigma.
